THE FORNAX world

fornax  
Tradition of Innovation

since  
1990

More than  
30 Years  
**OF EXPERTISE**

---

In the early 1990s we were already involved with the stock exchange, and we were the first to supply 128 kbps terminal equipment to end-users in Hungary. By the end of the millennium, we were experimenting with programming methods generating virtual reality. Our proprietary enterprise workflow and workforce management system, EVENTUS, won a European Software Excellence Award. The track team of our co-workers covered more than 593 km in national running races.

The company group has been present in the IT sector since 1991 thanks to its innovative and bold developments and its strong team of professionals. The FORNAX name looks back on a history of more than a quarter of a century in the domestic and international IT markets, and the 100% Hungarian-owned IT company group has grown into a corporation with several members. Thanks to its initial spirit of experimentation and now well-established international contacts, the company is at the forefront of the application and development of the latest technologies.

FORNAX celebrated its 30<sup>th</sup> anniversary in 2020. At that time, Eventus supported more than 10,000,000 customers and managed the work of more than 10,000 employees every day.

## Social engagement

We are among the founders and committed supporters of Challenge24, an international programming competition of the Hungarian Association of Electrical Engineering and IT Students.

We have supported both the “Girls in IT” conference organized by Infotér Association and the INFOPROG 2015 – the 20<sup>th</sup> annual IT Competition for Hungarian Secondary Schools of the Carpathian Basin.

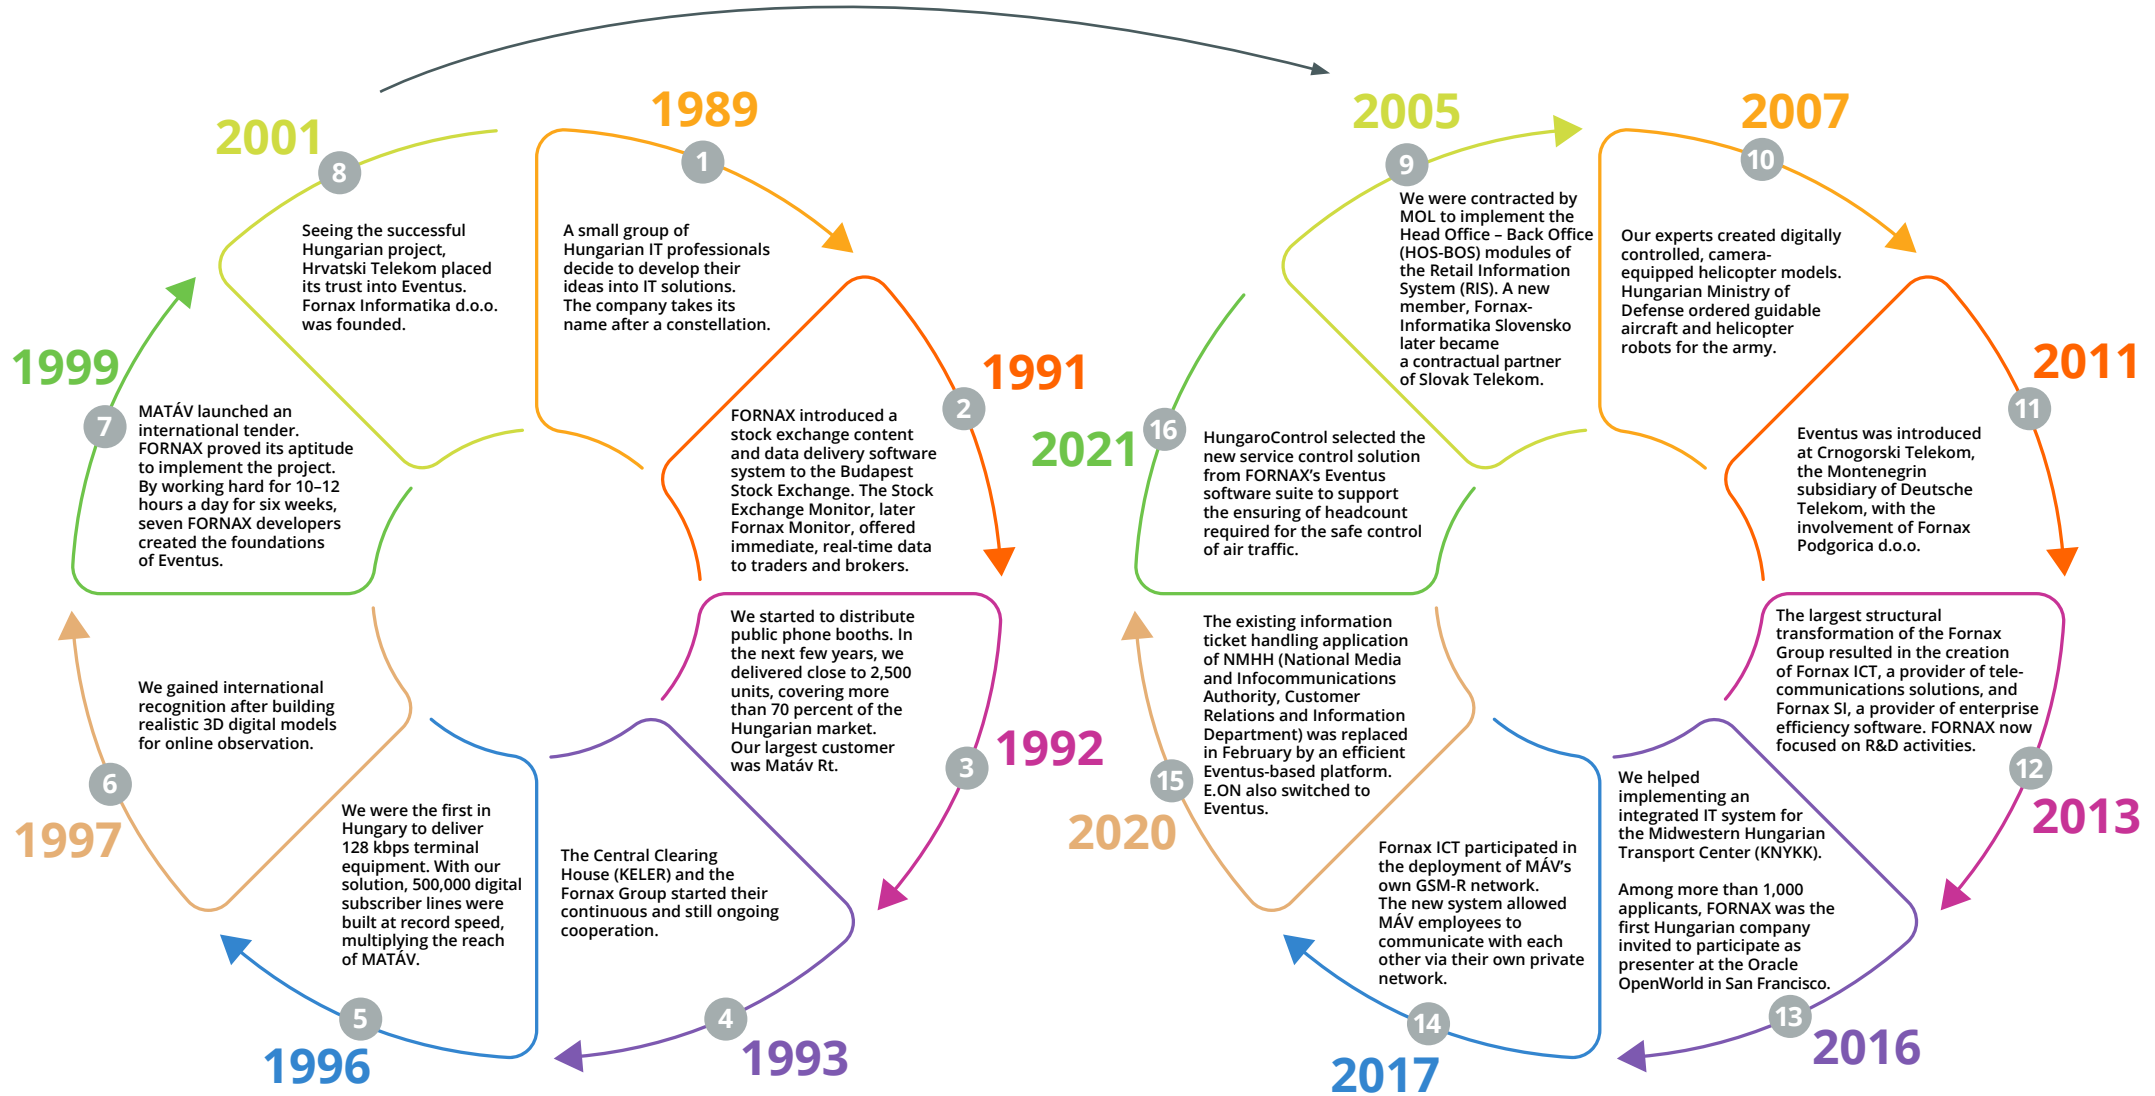

We developed the Redinner app, which helps the discounted redistribution of leftover restaurant meals among those in need.

We are regular supporters of the Magic Lantern Foundation and the Cseppkő Children’s Home in Budapest.

Our Most  
Important  
**MILESTONES**

Activities,  
Services,  
**COMPETENCIES**

---

In addition to supporting research and development and start-up projects, **Fornax Zrt.** offers businesses complex solutions for various IT needs. Fornax is an expert in building IT systems with nationwide coverage and in other financial IT solutions.

**Fornax ICT** is engaged in the delivery and customisation of complex IT solutions, provides IT support, optimization and automation for work and business processes, and offers application integration.

**Fornax SI** provides a full range of services in the field of ERP systems, IT integration and outsourcing, and is also a leader in consulting in these areas.

By the end of the 1990s, FORNAX gained a dominant position in the Central European IT market. In addition to its Hungarian companies, the group founded foreign subsidiaries in Montenegro (**Fornax ME**) and Croatia (**Fornax HR**), also in the IT sector.

## The Award Winning Solution of Fornax

**Eventus**, the work flow and work force management system developed by Fornax is used in several European countries and is the winner of multiple Hungarian and international awards.

## Our efficient quality management systems:

Fornax has been working in accordance with the ISO 9001 quality management system since 2003. In 2014, Fornax was among the first to implement and apply the new ISO 27001:2013 information security management system.

Accomplishments,  
**AWARDS**

- In the **Golden Drum '97** competition finals, we won the **Silver Mouse Award** as runner-up for Best Commercial Website.
- In 2001, E Journal awarded the **best integration solution of the year** to FORNAX's Messaging Dispatcher application for KELER.
- The Eventus system was deemed a silver winner at the **Global Excellence in Workflow Awards** by the most prestigious organizations in the workflow management industry worldwide.
- Eventus won the **IT Business Leadership Award** in 2008. The IT magazine rewarded such companies as HP, Microsoft and Ericsson.
- The Hungarian Innovation Foundation awarded the **Hungarian Innovation Grand Prize** to FORNAX's Error Detection and Troubleshooting System (E2E TSS), delivered to Hungarian Telekom in 2008, as one of the 12 successful innovations highlighted in the 17<sup>th</sup> Hungarian Innovation Grand Prize Competition.
- In 2010, FORNAX won the **Hungarian Telekom Dolphin Award** in the field of sustainability.
- In 2012, the company was awarded first place in the **European Software Excellence Awards**, one of the most prestigious competitions for software developers in Europe.
- SAP Hungary Kft. awarded FORNAX with the **Most Innovative Partner of the Year** in 2012, the **Qualified Public Sector Partner of the Year** in 2013 and the **Most Successful Partner in the Medium Enterprise Sector** in 2014.
- In 2013, a unified management information system was implemented at the 20 most important members of the MVM Group – the main contractor of the project was FORNAX in cooperation with SAP Hungary Kft. The project won the Gold Award of the prestigious **SAP Quality Awards**.
- In September 2013, FORNAX was the first Hungarian company invited to give a presentation at **Oracle OpenWorld** global conference.
- In 2015, the judges of the **Hungarian Telekom Delfin Award** once again awarded FORNAX with a certificate of merit for its entry in the category "Innovation for Sustainability".
